

Property Mitigation Program

Last Updated: 2018

When an unfortunate event occurs and causes structural damage to buildings or structures, mitigation services are required to help reduce further damage by drying and cleaning the affected areas as well as securing the building/premises.

Our mitigation vendors: BMS CAT, Belfor and Interstate Restoration, LLC are available 24 hours a day, 7 days a week, 365 days a year to respond to situations involving damage to a building that requires immediate mitigation services. The mitigation vendor's immediate response will help reduce further damage to the building and potentially reduce business interruption.

The Professional Service Agreements we have in place with each approved vendor requires them to contact the Customer within 10 minutes of receiving the referral and to inspect the building damages within 4 hours or less of an assignment under normal circumstances.
